# Broker Data Migration

- As part of migrating customer data from HealthCare.gov to autorenew customers for 2026 Open Enrollment, Get Covered Illinois will be also migrating customers' current broker designations to keep customers connected to their current brokers.
- However, HealthCare.gov does **not** provide Get Covered Illinois with all the broker demographic information necessary for this transition.
- Therefore, Get Covered Illinois is requesting demographic **directly** from brokers as part of this transition. Your timely and accurate provision of this information will ensure that you maintain connection to your current HealthCare.gov-enrolled customers.
- This information will be included in your Get Covered Illinois public broker profile (which you will be able to edit after you first log in to your Get Covered Illinois broker portal).
- Inaccurate information may result in the inability to connect you with your clients for plan year 2026. If Get Covered Illinois cannot verify and match you with your clients, we will not be able to keep you as the broker of record for your current HealthCare.gov enrolled customers and you will have to be redesignated to each of them individually.
