

Plan Year 2026 Insurer Crosswalk Guide for Brokers and Assistors

Purpose

In 2026, some health plans will no longer be available. This document aims to provide brokers and assistors (navigators, Certified Application Counselors [CACs]) with a quick guide on how to use the Plan Year 2026 insurer crosswalk on the Get Covered Illinois website: <https://getcovered.illinois.gov/plans-and-cost/2026-plan-changes.html>.

- **IMPORTANT:** This crosswalk is intended to be for **reference only**. Please check your account (i.e., Broker Portal, navigator or CAC account) for details on the plans in which your customers are automatically enrolled for Plan Year 2026.

Using the Crosswalk

Step 1: Go to the Get Covered Illinois website (<https://getcovered.illinois.gov/>), then click on the “2026 Marketplace Changes” option under the “Plans and Costs” dropdown menu (see the screen capture below).

Step 2: Select the link for the “2026 plan changes” web page (see the screen capture below).

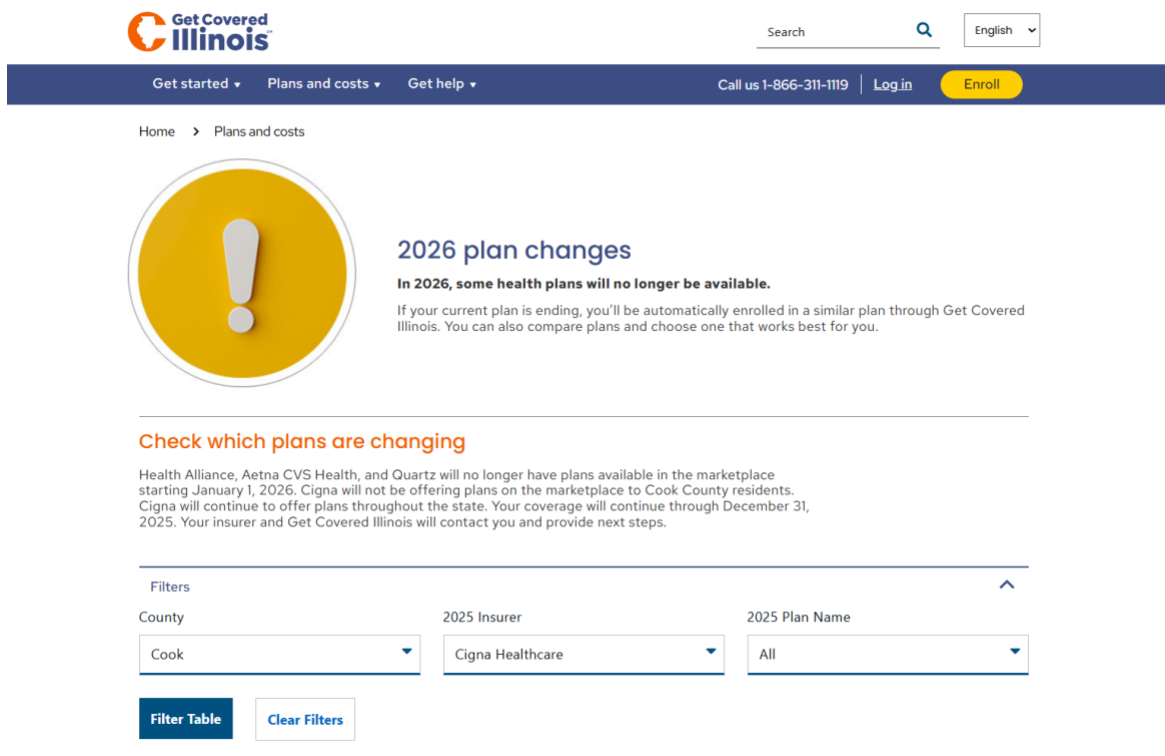

Insurers no longer offering coverage on the marketplace

Some insurers are no longer offering plans through the marketplace. CVS, Aetna, Health Alliance and Quartz will no longer offer plans throughout Illinois. Celtic will no longer offer Bronze plans throughout the state. Cigna will no longer offer plans in Cook County.

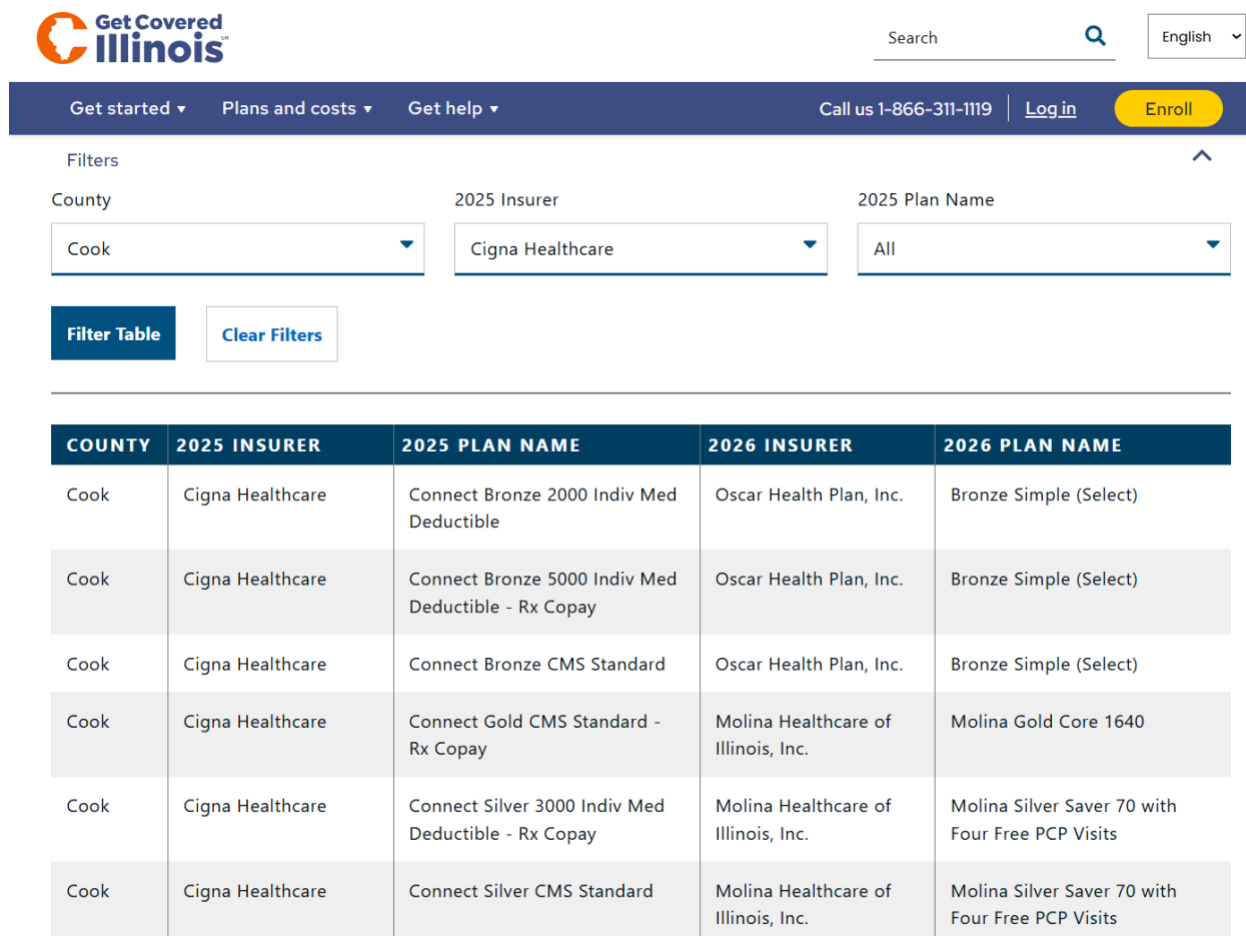

If you are currently enrolled in any plans offered by the above insurers, your coverage will remain in place until December 31, 2025. You will automatically be enrolled in a similar plan for 2026. We encourage you to shop and compare options when open enrollment begins on November 1 to ensure you have a plan that best fits your needs and budget. Learn more about what plans are changing on our [2026 plan changes](#) page.

Step 3: Use the filters on the page to assess plan changes for specific counties, 2025 insurers, or 2025 plans. After selecting your filters, select the “Filter Table” button to see your results below on the web page.

- **IMPORTANT:** Be aware that mismatched filter settings will cause you to see zero results. For example, you will see zero results if you select an Insurer who does not operate in a certain county. If this happens, click the “Clear Filters” button to start a new search.

Example: The screen capture below demonstrates the changes of Cigna plans previously offered in Cook County and the corresponding Plan Year 2026 changes.
