H.R.1

This legislation was signed into law in July 2025. It contains major overhauls to various public health programs, including the ACA and Medicaid. Our assessment of Marketplace impacts and implementation timeline include:

Effective 2026

- Eliminate caps on recapture of APTC.
- End PTC eligibility for immigrants with incomes up to 100% FPL subject to Medicaid waiting periods (5-year bar).
- Disallow PTC for income-based SEPs.

Effective 2027

- Narrow the categories of noncitizens eligible for PTC.
- Medicaid work requirements.

Effective 2028

- End automatic renewal of financial assistance.
- End eligibility for APTC pending verification.
- Codify 1-year Failure to Reconcile (FTR) rule

Public Charge

The public charge rule is a 100+ year old federal law that allows U.S. Citizenship and Immigration Services (USCIS) officers to deny applications for admission or green card status if they determine someone is likely to become primarily dependent on the government for support.

"Likely to become a public charge" is assessed case-by-case, weighing many factors including:

- Age, health, and family status
- Income and assets
- Education and job skills
- Whether they have a job offer
- Financial resources and liabilities
- Whether they have family support
- Receipt of means-tested benefits

Public Charge

Public charge applies to:

- Some noncitizens who are applying for a green card (lawful permanent resident status) through a family member or job.
- Noncitizens seeking admission to the U.S. on a visa (applying from outside the country).

Public charge does not apply to:

- U.S. Citizens
- Certain exempt categories of people, such as refugees & asylees, applying for Lawful Permanent Resident status
- Current green card holders (unless they leave the US for more than 180 consecutive days).
- Generally, not relevant for noncitizens applying for citizenship.

Public Charge

Effective September 18, 2026:

USCIS officers now have broader discretion when assessing immigration applications to consider the following:

- All means-tested public benefits, **including receipt of premium tax credits and cost-sharing reductions**
- Whether family members received means-tested benefits as evidence of the applicant's income/financial status
- Any other factor they deem relevant

Note: these changes do not apply to visa applications reviewed by the Department of State (DOD), which is governed under the DOS public charge policy.

The public charge rule does not change someone's eligibility to enroll in the marketplace or receive financial help.

Public Charge

What should customers do?

If you have a customer who public charge may apply to, **encourage them to seek advice from a knowledgeable immigration legal service provider or legal aid organization.**

Get Covered Illinois, the customer assistance center, brokers or navigators cannot provide legal, financial or tax advice.

Updated Get Covered Illinois Provider Search Tool

Overview of Changes

Helping customers compare and shop

GCI is enhancing the Provider Directory tool to help customers more easily understand provider network participation and compare coverage across plans. Key changes include:

- The tool is now clearly organized into three categories: Facilities, Medical Providers, and Dental Providers
- Customers can select up to 12 providers and facilities in their search
- Customers can compare provider information in the Plan Details page
- Customers can view all specialties provided by a facility or provider directly on their plan tile
- Providers with multiple addresses are grouped together for more efficient and intuitive way of searching for a specific location

Updated landing page

Three categories display

The new Provider Directory feature divides the providers into three categories:

- Medical Providers
- Medical Facility
- Dental Providers

The subsequent sections describe how the search tool works for each of these categories as well as the provider display during plan shopping and comparison.

The screenshot shows a web form titled "Tell us about your healthcare needs". Below the title is a sub-header "(Optional) Please answer the questions below: (1/5)" and a "Skip to View Plans" button. The main section is titled "Search for a provider/facility – this helps us find the best matching plans for you." and contains three radio buttons: "Medical Providers", "Medical Facility", and "Dental Providers". Below these are three input fields: "Enter Zip Code" (with "60601" entered), "Search within" (with "within 5 miles radius" selected), and "Filter by Specialty" (with "Select Specialty" selected). At the bottom is a "Search by doctor name" input field with a search icon. A footer note states: "The health plan's list of providers changes daily. Call your doctor or provider to be sure they belong to the health plan."

Medical Providers

Step 1: Select “Medical Providers” and input the appropriate Zip Code, Radius, and optional specialty.

- User can input a zip code or a specific address

Plan Shopping – Comparing Plans

On the Compare Plans page, there is a new “Provider Selections” option to compare the provider information. Select this option to expand the Providers.

The Provider Selection section will then expand so that the user can compare specific providers and specialties among the three plans.

How to Flag Suspected Errors

Remember – the source of truth for the provider directory is the insurer.

GCI strives to maintain accuracy in the provider directory and we work weekly with insurers to include timely updates. However, the source of truth is the insurers. If you are ever unsure of whether a provider is in-network, we highly suggest confirming with the insurer.

If you do find suspected errors, please send the following information to GCI.Outreach@illinois.gov. The Partner Relations team will work with the Plan Management team in order to validate errors and correct them as needed.

- Plan Name
- Insurer
- Zip Code

If possible: NPI (National Provider Identifier)
